

TODAY'S TIGER

As TODAY'S TIGER,
my job is to:

1

Spot when things are going great in class so our teacher knows what's working really well and helping us learn.

2

Notice if anything is confusing to me or my classmates during the lesson.

3

Let our teacher know if any of us are having trouble understanding something and might need more practice.

4

Tell our teacher if the lesson feels boring or if we might learn better in a different way.

5

Share other helpful things I notice about the lesson and what we are learning with the teacher.
